

Letter to Ofgem on RII0-ED2 related energy policies

PUBLISHED DEC 14, 2020
BY [GOV.UK](https://www.gov.uk)

Ofgem, as the independent regulator, is responsible for the network price control. The price control sets the framework by which energy networks are funded and incentivised to improve the networks which deliver energy to consumers. Government policies and priorities, such as those relating to our progress towards net zero, are a potentially relevant factor in Ofgem's thinking.

This letter from Kwasi Kwarteng, Minister for Business, Energy and Clean Growth, outlines the government's views on these priorities, to share with Ofgem as they make their independent decision on the price control.
