We have always offered free resources on the Intrafocus website, it has been our aim to demystify strategic planning

Intrafocus is delighted to announce the availability of its online Strategy Resource Centre. The new resource centre has consolidated all of the Intrafocus free strategic planning resources into a single place. Many new resources have been added

"We have always offered free resources on the Intrafocus website, it has been our aim to demystify strategic planning," said Clive Keyte, Director at Intrafocus "as the website grew, the resources were added to various sections. We now have a single repository."

The repository makes it easy for people visiting the website to find and download the resources they need. Intrafocus will continue to add resources over the next few weeks and months.

The Intrafocus free strategic resources are augmented by the Intrafocus seven-step strategic planning process (SPP) based on the balanced scorecard methodology.

Intrafocus is a business-performance management consultancy and software reseller. Intrafocus provides strategy workshops, strategic consultancy and software to help organisations build, implement and manage their strategy.
