

Leading Singapore Broker Phillip Nova adopts Signal Centre's Signal Stream for MT5

PUBLISHED MAY 25, 2022
BY [PRESSAT](#)

One of Singapore's top brokerages for the trading of Stocks, CFD, Forex, global Futures and Commodities, Phillip Nova has selected Signal Centre to deliver professional trade ideas and analysis via their Signal Stream product, to its global clients.

Prioritising their MT5 offering, Phillip Nova's clients can access Signal Stream via a fully integrated Expert Advisor (EA) and via a bespoke email.

As well as receiving a comprehensive set of daily signals across the FX, Commodities, Indices and Cryptocurrency markets, Philip Nova's clients will also benefit from enhanced weekly insights from the Top 30 global equities, a new addition to Signal Stream's portfolio. Produced by the same experienced team of technical analysts and market professionals, these new signals have longer timeframes and will suit equity swing traders.

"Phillip Nova are one of the largest brokers in the Asia Pacific region with a large product offering across all asset classes. As we are seeing across the globe, the desire to trade single stocks continues to grow and we are pleased to be able to support Phillip Nova in their product expansion with signals on the Top 30 equities in addition to our existing daily trade ideas. This service has been built specifically for Phillips Nova and we look forward to adding more stocks to this portfolio in the future."

Teyu Che Chern, Phillip Nova CEO says his clients will certainly welcome the new features.

"We have seen an increase in demand for more sophisticated trading tools and signals. We are happy to partner Signal Centre and take another step forward to stay relevant and to meet our clients' changing needs."

Philips Nova is the most recent broker to follow Vantage Markets to integrate Signal Centre's products following the acquisition by Acuity Trading in 2021; taking advantage of the enhanced AI technology, design, multiple languages and delivery channels including MT4/5, email and Telegram.
