

# Number of BTCNEXT Exchange users doubles in 2021

PUBLISHED NOV 25, 2021  
BY [PRESSAT](#)

Yet another great milestone for the BTCNEXT Exchange - the number of active users doubled during the bullish 2021! It's nice to see consistent work getting positive results.

The year 2021 sizzled for BTCNEXT Foundation, Hong Kong, - the company that runs the BTCNEXT Exchange. There are now twice as many active users on it than there were in 2020. Today, the trading platform has 70k users! This is yet another important milestone in the development process.

BTCNEXT Foundation, Hong Kong, has been making titanic efforts on a consistent basis to improve the user experience. In 2021, the BTCNEXT community witnessed multiple listings, bonus distributions and core improvements. The work is ongoing, round-the-clock.

A big reason for the crypto exchange's popularity was the addition of BNX - a native token that guarantees trading fee discounts and the opportunity to become a BTCNEXT Angel. December 2020 was when the last token burn took place, reducing the total supply to 250 million. The BNX price significantly strengthened its position and attracted new holders. In the summer, the price reached \$0.40, which is x10 from the bottom.

Another key contributing factor is the role played by BTCNEXT Angels - these are premium users and the main BNX token holders. They helped the team to achieve a long-awaited level of stability. For their loyalty, bonuses are regularly awarded to these users. This too is a way to attract new users!

But the key factor is the continuous efforts of the BTCNEXT Foundation, Hong Kong team. Throughout the year, the team

has put in a tremendous amount of work to improve the exchange's functionality. These upgrades have impacted the exchange's core which now works faster and can handle the increased loads brought on by the influx of new users.

BTCNEXT wishes to recommend itself as a strong player in the crypto industry. BTCNEXT Foundation, Hong Kong, the team behind the project, is doing its best to deserve an international user-base and expand its popularity globally. Recently, the team embarked on a huge initiative to significantly improve the exchange's sustainability, which shows that the team is gearing up for massive things to come. Let's see what the future holds!
