[SocialBox.Biz](#) Community Interest Company believes that disadvantaged groups such as older people in isolation, homeless, and refugees should have ready access to technology to speak to loved ones, order food and medication online, and continue their education – especially in the context of the current c-19 pandemic.

The three key goals of their manifesto include following:

- eradicating digital poverty in the UK by the year 2030;
- reducing the amount of ‘unneeded’ yet usable technology being scrapped by organisations;
- and revising procurement policies in the UK relating to old technology.

A large number of charities have joined this appeal already.

[SocialBox.Biz](#) is a community interest company (CIC) improving the local community by providing innovative tech solutions. [SocialBox.Biz](#) launched in 2014 to take unused and outdated yet still useful laptops from businesses, organisations, and other agencies and wipe them clean before donating them to those in need with open-source software. Today, the company is working towards larger donation milestones. In order to ensure all reused laptops are used to their fullest, [SocialBox.Biz](#) works with accommodation services

and charities that monitor usage of the electronic.
