

[Video] Galaxy Buds Live Challenge, Part 4: Balancing on a Knife's Edge with a Tightrope Walker

PUBLISHED NOV 17, 2020
BY [SAMSUNG GLOBAL](#)

Galaxy Buds Live are Samsung Electronics' latest open-type earbuds with a one-of-a-kind aesthetic, leading audio quality bolstered by AKG's sound expertise and Active Noise Cancellation for a truly immersive earbud experience. What's more, Galaxy Buds Live feature a revolutionary ergonomic, tip-less design that conforms to the shape of your ear for all-day comfort.

But just how effectively does this convention-defying design hold up when used for some of the most dynamic and movement-heavy activities out there? Samsung Newsroom handed over pairs of Galaxy Buds Live to several movement experts to really put them to the test.

Korean traditional tightrope walking, or 'Jultagi', is a performance art that requires a keen sense of balance in order to pull off the complicated moves. With over 40 different kinds of techniques, Jultagi sees performers walking, lying, sitting, twisting and jumping on a suspended rope – all without falling.

Given the intricate and acrobatic moves required in a Jultagi performance, it promises to really put the Galaxy Buds Live to the test. Take a look at the video below to see how the Galaxy Buds Live fared in the fourth installment of the Galaxy Buds Live challenge series.

Stay tuned to Samsung Newsroom for the next installment in the Galaxy Buds Live challenge series.
